

**WESTERN**  
energetix

## One Vendor

## One Invoice

## More Locations

The Western Energetix Fleetwide card takes the place of your traditional retail fuel card at more than 30,000 locations in North America and also works at CFN sites. Charges go to your Western Energetix account ensuring you have one vendor, one invoice, and company-wide consolidated purchasing for all of your fuel.

### Locations

Everywhere you see a CFN or Fuelman sign, your Fleetwide card is welcome and accepted. And the Western Energetix Fleetwide takes the place of your traditional retail fuel card by offering fuel purchases at retail locations in North America, including **participating Arco, Exxon/Mobil, 76 and Shell stations, and all Pilot Travel Centers and Loves Truck Stops.**

### Management

With Fleetwide, you have 24 hour access to your account information via the internet. Most importantly, Fleetwide provides you with a fueling program tailored to your fleet's requirements, including an extensive diesel network, card-specific security controls and 24-hour access to account management.

### Security

Like your Western Energetix CFN cards, Fleetwide allows you to set security profiles for individual drivers, departments or for your entire fleet. Deciding fueling limits helps you manage fuel consumption.

- Number Per-Day Transaction Limits
- Gallon Limits Per Day \*
- Time and Day Restrictions
- Product Controls at Some Sites
- CFN Card Watch on Request for Tracking and e-mail Verification of Purchases

\*Gallon limits are checked only at the beginning transaction. Card will not stop mid-transaction.
